Skills

- Understand how search engines work and know that there are different search engines; some to search within sites, and some to search the wider Internet.
- Understand what 'ranking' is when related to search engines.
- Understand the importance of keywords and 'linked' pages in the listing/ranking of websites by search engines.

By the end of the unit pupil will know:

- Understand the difference between the internet and the World Wide Web.
- Understand that the Internet provides many different services.
- Know about the key components of a network and how networks work.
- Understand what an IP (Internet Protocol) address is.
